ELION SOLAR STREET LIGHT

SOLAR MINI TOWER - G2

EARTHSOLAR
MEGA TOWER G2X
SOLAR LED STREET LIGHT

- » Better lumen output, smaller compact lights
- » Higher charge efficiency for longer lasting lighting
- » Easy upgrade for existing towers
- » 6 Metre break back galvanised pole with synthetic cable
- » Heat shield kit for greater insulation
- » 24V Lithium LiFePO4 Battery
- » Lighting time up to 2 ~ 3 days with minimum sunlight
- » Optional CAT-D region upgrades

IDEAL FOR

Mine sites, Temporary construction sites, Remote operations, Industrial applications, Interchanges, Depots

MODEL NUMBER	ETG-SLMT200-G2X	ETG-SLMT400-G2X	ETG-SLMT600-G2X
Luminaires	2	4	4
Lumen (lm)	16,280	32,560	42,550
Solar Panel (W) x Quantity	400W x 2	400W x 4	400W x 4
Luminaire Input	24VDC	Pole Height (m)	6
LED Chips	5050	Winch	Rock break winch (synthetic cable)
Luminaire Body	Aluminium + PC Lens	Base Dimensions (mm)	1600 x 1600 x 600
Operating Temperature	-30° to +45°C	Base Weight (tonnes)	4.5
Adjustable	360°(Rotate) / 270°(Tilt)	Fork-lift sleeves	Yes
Battery	LiFePO4 - Elion Lithium battery	Optional Upgrades	CAT-D Region 1.5m ³
IP Rating	IP67 [Luminaires] IP68 [PV Panels, Cables, Connectors & lockout switch]	Battery box	Lockable vented with cooling fan
Pole	Galvanized Finish	Installation Manual	Included

The performance of this product may vary due to climate or seasonal factors that affect the available daylight hours or intensity of sunlight (ie. persistent cloudy or inclement weather). This product requires at least 6-8 hours of full sunlight, over 2-3 days when first installed to achieve full brightness. If this is not achieved, the product may produce substantially lower lux levels than specified, even when at 100% operation. Customers are advised to discuss this with their Earthtrack representative when selecting solar products for their site location.

Model shown may differ from the actual model due to changes since publication date

EARTHSOLAR
MAXI SERIES G2
SOLAR LED STREET LIGHT

- » Easy maintenance breakback pole
- » Rock break winch with synthetic cable
- » Lithium LiFePO4 Battery
- » Heat shield kit for greater insulation
- » Lighting time up to 3 - 7 days with low sunlight

MODEL NUMBER	ETG-SLMT90-G2	ETG-SLMT140-G2	
Light Fixtures	Single	Twin	
Lumen (lm)	9800	14,000

EARTHSOLAR
ELION POLE
SOLAR LED STREET LIGHT

- » Vandal resistant, secure control box
- » Powerful, long lasting lithium battery technology with intelligent features
- » Easy access and ergonomic control box for maintenance
- » In-ground or concrete box mounting options rated for Category D regions
- » Plug & Play pre-programmed intelligent controller – automatic on/off
- » Heat dissipation optimized design, with cooling vents and fan
- » Premium winch and counterweight construction for easy pole lowering
- » 3~4+ days of autonomy
- » 6m pole heights

MODEL NUMBER	ETG-ESPL50	ETG-ESPL90	ETG-ESPL50-TWIN
Power (W)	50	90	100
Lumen(lm)	7,000 lm	12,600 lm	7000 lm x 2
Battery Storage (LiFePO4)	150 Ah (24V)	200 Ah (24V)	200 Ah (24V)
Optional Upgrade	Cyclone rated 1m ³ -1.5m ³ Concrete block		

Input Voltage (Luminaire)	24V DC	Solar Panel	12/24V DC (310 Monocrystalline)
LED Chip	Nichia - Japan	Solar PV Power	400W
Light & Panel Rotate	360° (Adjustable)	Luminaire Body	Aluminium alloy + PC Lens
IP Rating	IP66 (Luminaire) IP68 (PV Panel)	Concrete Block	With forklift sleeves

Battery	LiFePO4 - Lithium battery	Pole Type	Break back - manual winch tilt
Installation Manual	Included	Battery Box	Lockable, vandal resistant & vent fan

BASE OPTIONS	DESCRIPTION	CODE
Concrete Base	1400 x 1400 x 800 - 4 Tonne	ETG-CB1405
	1600 x 1600 x 600 - 4 Tonne	ETG-CB1606
Rag Bolt Cage	24mm galvanized bolts, 4x M24 at 350PCD	ETG-RBC

The performance of this product may vary due to climate or seasonal factors that affect the available daylight hours or intensity of sunlight (ie. Persistent cloudy or inclement weather). This product requires at least 6-8 hours of full sunlight, over 2-3 days when first installed to achieve full brightness. If this is not achieved, the product may produce substantially lower lux levels than specified, even when at 100% operation. Customers are advised to discuss this with their Earthtrack representative when selecting solar products for their site location.

EARTHSOLAR
TRAFFIC LIGHT
CUSTOM TOWER

- » Easy access to the pedestrian button
- » Water/Dust resistant
- » Elion Lithium battery power storage
- » Monocrystalline grade A solar panel
- » Powder coated 4m pole
- » Sturdy system for harsh environment
- » Concrete base with forklift sleeves

IDEAL FOR

Mine sites, Temporary construction sites, Remote operations, Industrial applications, Interchanges, Depots

MODEL NUMBER	ETG-SLTL01
Solar Panel	360 Monocrystalline
IP Rating	IP68: Solar Panel, Cables Connectors, lockout switch IP55: Traffic Light modules, Control Enclosure
Controls	Fully customisable
Battery	Elion™ Lithium Battery (LiFePO4)
Standard Height (m)	5.5
Base Dimensions (mm)	1000 x 1000 x 1000
Base Weight (tonnes)	2.5
Fork-lift Sleeves	Available

* Light modules can be fully customisable

* For Category D - Kit available

The performance of this product may vary due to climate or seasonal factors that affect the available daylight hours or intensity of sunlight (i.e. persistent cloudy or inclement weather). This product requires at least 6-8 hours of full sunlight, over 2-3 days when first installed to achieve full brightness. If this is not achieved, the product may produce substantially lower lux levels than specified, even when at 100% operation. Customers are advised to discuss this with their Earthtrack representative when selecting solar products for their site location.

EARTHSOLAR
MINI SERIES G2
SELF-CLEANING LED STREET LIGHT TOWER

- » 7-10 night lighting, even through rainy or cloudy weather
- » All-in-one solar lighting - modern, streamlined design
- » Automatic dust sweeping function keeps panels working at optimal efficiency
- » Intelligent day/night sensors and lighting modes (100% 5 hr + 20% till dawn)
- » IP65 dust and waterproof
- » Robust aluminium alloy and polycarbonate materials

MODEL NUMBER	ETG-SLMT40-G2		
Power (W)	40W		
Lumen (lm)	4000lm		
Dimensions - Light Fixture Only	903 (l) *410 (w)*105 (h)mm		
Luminare Weight	15.5kg		
Solar Panel	35.7W/16V		
Battery Capacity	269.36Wh/14.8V		

CCT	4000K	Light Modes	100% 5H+ 20% until Dawn+ ODM
Beam Angle	155°x60°	Pole Type	Hinged Pole (HRP4)
IP Rating	IP65	Pole Coating	Anti-Corrosion & Powder coated orange
IK Rating	IK10	Pole Height	4m
Operating Temp.	Charging -20°C ~ +45°C	Concrete Base	750x750x500mm
	Discharge -20°C~ +60°C	Base Weight	750kg
Charging Hours	10 Hours	Total Weight	1650kg
Lighting Days	7-10 Days	Tower mobility	Base with forklift sleeves

The performance of this product may vary due to climate or seasonal factors that affect the available daylight hours or intensity of sunlight (ie. persistent cloudy or inclement weather). This product requires at least 6-8 hours of full sunlight, over 2-3 days when first installed to achieve full brightness. If this is not achieved, the product may produce substantially lower lux levels than specified, even when at 100% operation. Customers are advised to discuss this with their Earthtrack representative when selecting solar products for their site location.

The performance of this product may vary due to climate or seasonal factors that affect the available daylight hours or intensity of sunlight (ie. persistent cloudy or inclement weather). This product requires at least 6-8 hours of full sunlight, over 2-3 days when first installed to achieve full brightness. If this is not achieved, the product may produce substantially lower lux levels than specified, even when at 100% operation. Customers are advised to discuss this with their Earthtrack representative when selecting solar products for their site location.

SPECIFICATION

MODEL	ETG-SSL4000
Power (W)	40
Luminous Flux (lm)	4800
Luminous Efficacy (Lm/W)	120
IP Rating	IP65
Beam Angle	60° x 120°
CCT	4000K - 6500K
CRI	>70
LED Chip	LUMILEDS
PV Voltage when light ON	(Greater than or Equal) >= 5V
Solar Panel	40W/18V
LiFePO4 Battery	18AH / 12.8V
Charging and Discharging time	Charging time 6-8 Hours 6-8 Hours (Light ON) 5-7 Rainy days
Working Temperature	Charging: 0 ~ 45C Discharge: -20C ~ +60C Working Humidity: 15-90%
Motion Sensing distance (m)	5 ~ 8
Pole Height (m) dia (mm)	Height: 4 to 8 metre Ø60
Net Weight (kg)	6.3
Dimensions (m) (LWH)	667 x 357 x 70
Warranty	3 Years

DIMENSION

ETG-SSL4000

PHOTOMETRIC CURVES

SOLAR PRO PATHWAY LIGHT SELF CLEANING

SENSOR and INDICATOR

Day / Night Sensor for automatic ON/OFF and Indicator to show battery capacity

SELF CLEANING BLADE

Autonomous motorised solar panel dust cleaner

Temperature Control System (TCS)

When temperature is over 65°C, the TCS will cut off the charging system to protect battery. When below 65°C, the charging system will continue to work automatically

Adaptive Lighting System (ALS)

When bad weather or lack of sun affects charge, the system will do a smart timing calculation for the remaining battery capacity and give max output efficiency use for long lighting time

ETG-SPWPROSC040

ELION SOLAR CONTAINER KIT

SOLAR CANOPY LIGHT

SOLAR SECURITY LIGHT

ELION SOLAR LIGHTING CONTAINER KIT

ELION SOLAR CONTAINER KIT has everything you need to create off-grid powered lighting. Designed to be used with standard containers or wherever you need power made by the sun.

IDEAL FOR

Storage Container, Remote Site Office, Off-grid Lighting Solution.

KIT FEATURES

- » Plug & Play Installation
- » Motion Sensor Activated
- » 3+ Days of Battery Autonomy*
- » LiFePO4 Lithium Batteries
- » Ventilated Lockable Battery Box
- » Panel Array Rated to Wind Region D
- » 300 Lux Average Across Container
- » 12 Hours Per Day Run Time Capability
- » Australian Made

LUMINAIRE

- » Functional Slimline Design
- » Durable Polycarbonate Cover
- » High Luminous Efficacy
- » Minimum Glare
- » Vandal and Tamper-Proof
- » No UV, Lead Or Mercury

* The performance of this product may vary due to climate or seasonal factors that affect the available daylight hours or intensity of sunlight (ie. persistent cloudy or inclement weather). This product requires at least 6-8 hours of full sunlight, over 2-3 days when first installed to achieve full brightness. If this is not achieved, the product may produce substantially lower lux levels than specified, even when at 100% operation. Customers are advised to discuss this with their Earthtrack representative when selecting solar products for their site location.

SPECIFICATION

Model	ETG-ESCK20	ETG-ESCK40
LED Luminaire	2 x 20W ZEUS Batten DC Light	4 x 20W ZEUS Batten DC Light
Total Lumen Output (lm)	3960	7920
Battery	Elion LIFEPO4 Lithium 150Ah x 1	Elion LIFEPO4 Lithium 150Ah x 2
Solar Panel (W) x Quantity	400W x 1	400W x 2
Luminaire Size (mm)	660 x 80 x 75	
Luminaire Weight (Kg)	1.44 (Per Batten)	
Solar Controller	60A	
Panel Size (mm)	1956 x 992 x 40	
Solar Panel Kit Size (mm)	1916 x 2100 x 685	
System Voltage (V)	12	
Battery Enclosure	Powder-coated, Lockable Vented With Cooling Fan	
Enclosure Mounting	Wall-mounted	
Cables	20 Metre Dc Light Cable + 5 Metre Solar Cable	
Sensor	Stand Alone Motion Sensor 12V AC/DC	

The performance of this product may vary due to climate or seasonal factors that affect the available daylight hours or intensity of sunlight (ie. persistent cloudy or inclement weather). This product requires at least 6-8 hours of full sunlight, over 2-3 days when first installed to achieve full brightness. Max LED Output	Customisable*	Recharge	5 hours (Setting dependent)
Maximum Lumen Output	Customisable*	Mounting	Ground post, wall, or column
Solar Panel	6.3W	Mounting Height (mm)	950mm (300mm Inground stem)
Light Source	Premium directional LED modules	Fixture Size (mm)	Ø 280 x 160
Battery Type	LiFePO4	Finish	UV stabilised high impact polycarbonate
Battery	12AH 3.2V	Compliance	AS/NZS 1158.3.1-PP5
IK Rating	IK10	Standard Stem Colour	Black / Grey
Autonomy	>7 nights (Setting dependent)	*Wildlife Friendly	550nm wavelength
CCT (K)	Standard 5000K 3000K	*Body Type & Colour	316 Stainless Steel / Custom Colour
Sensor	Daylight + Microwave Motion sensor	Warranty	3 Years

Made in China, distributed by Earthtrack

* Optional features (ordering codes are listed below)

PRODUCT CODES INCLUDING INSTALL KIT

MODEL RANGE	Standard (surface mount)	Wildlife (surface mount)	Standard (inground stem)	Wildlife (inground stem)
Standard (Black/Grey)	ETG-VSBL01-A	ETG-VSBL01-AW	ETG-VSBL01-B	ETG-VSBL01-BW
Stainless Steel	ETG-VSBL01-AST	ETG-VSBL01-AWST	ETG-VSBL01-BST	ETG-VSBL01-BWST
Custom Colour	ETG-VSBL01-ACC	ETG-VSBL01-AWCC	ETG-VSBL01-BCC	ETG-VSBL01-BWCC

Install Kit Included

MODE OF OPERATION

Automatic dusk to dawn lighting. The 360° sensor detects movement, increasing the LED output to 100% as you approach, remaining at 100% while movement is detected. The lamp will dim to 30% output (variable) when movement is no longer detected. Fully programmable* LED output

*The Vandal-Resistant Solar Bollard is fully customisable and/or programmable, this includes lumen output, timed operation or specific individual programming to ensure consistent dusk to dawn lighting in any location.

Disclaimer: Product performance may vary in environmental or seasonal conditions that affect available daytime light levels or intensity of sunlight. Units require initial charging of 6-8 hours full sunshine over 2-3 days to achieve state lux levels and autonomy performance. All product, product specifications and data are subject to change without notice to improve reliability, function or design or otherwise. This information is general. We take no responsibility for any errors or omissions that impact on your circumstances. Please contact your Earthtrack Representative to discuss your requirements.

PRO

SOLAR PRO PLAZA LIGHTS

FEATURES

- » A Grade monocrystalline solar panel
- » Anti-corrosion, anti-oxidation, high impact PC cover
- » Automatic intelligent light control
- » LED Lifespan up to 50,000 Hours
- » No Cabling, No trenching Easy installation

IDEAL FOR

Exterior Wall, Plaza, Street, Garden, Park, Roadways, Parking Lot, Courtyard, Campus, Corridors, Side walks, Public square, Airfield, Ranch, Private roads, Beach

Solar Panel+Battery

Water and dust proof

120° Lighting Angle

Motion Sensor Control (Optional)

Model	ETG-SPL9400	IP Rating	IP65
Power (W)	12	Autonomy	18 Hrs(100%) / 42Hrs (Energy Saving mode)
Lumen (lm)	1440	CCT	3000K-6500K
Solar Panel	18V/25W	Body Material	6063 Aluminium & PC
Battery	12Ah 12V	Body Colour	Black / Grey
Pole Diameter (mm)	Ø 76	Dimension (mm)	Ø 515 (top) 435 Height
Solar Charging Time	6 hrs/day	Optional Features	Smart monitoring/ Microwave Sensor
Battery	12.8V 10AH LiFePO4 Lithium Battery	Net Weight	6.4kg
Beam angle	120°	Warranty	3 Years

The performance of this product may vary due to climate or seasonal factors that affect the available daylight hours or intensity of sunlight (ie. persistent cloudy or inclement weather). This product requires at least 6-8 hours of full sunlight, over 2-3 days when first installed to achieve full brightness. If this is not achieved, the product may produce substantially lower lux levels than specified, even when at 100% operation. Customers are advised to discuss this with their Earthtrack representative when selecting solar products for their site location.

ELION

LiFePO4 - Compact Lithium Battery

OVERVIEW

Experience long-lasting power, rapid charging, and effortless portability with Elion Compact Lithium batteries. They're not just dependable; they're engineered to minimise environmental impact, making them a smart choice for both personal and industrial use.

FEATURES

- » Up to 20 times longer cycle life than alternatives, minimising replacement costs
- » About 40% of the weight of comparable lead acid batteries
- » Delivers twice the power and maintains a high energy capacity
- » Automatic 'Battery Management System' for enhanced safety

IDEAL FOR

- Solar Street Light Towers
- Campsites
- Off Grid Power Stations

MODELS	ETG-ELI15-C	ETG-ELI20-C	ETG-ELI35-C
Nominal Voltage (V)	12.8V	12.8V	12.8V
Rated Capacity (77°F/25°C)	150Ah @0.5C	200Ah@0.5C	350Ah @0.5C

Warranty (Months)	36		

ELION

LiFePO4 - 24V Compact Lithium Battery

Elion Lithium 24V

OVERVIEW

Elion Compact Lithium 24V batteries provide long-lasting power, fast charging, and lightweight portability, making them a smart choice for both personal and professional use.

FEATURES

- » Up to 20 times longer cycle life than alternatives, minimising replacement costs
- » About 40% of the weight of comparable lead acid batteries
- » Delivers twice the power and maintains a high energy capacity
- » Automatic 'Battery Management System' for enhanced safety

IDEAL FOR

- Solar Street Light Towers

MPPT CONTROLLER

PROTECTIONS

- » PV short circuit and over current protection
- » PV and Battery reverse polarity protection
- » Battery over discharge and voltage protection
- » Load overload protection
- » Battery overheating protection
- » Controller overheating protection

FEATURES

- o Advanced MPPT technology, with efficiency no less than 99.5%
- o Maximum conversion efficiency of 98%
- o Ultra-fast tracking speed
- o High accuracy of recognizing and tracking of multiple power points
- o Automatic function of maximum PV input power
- o Wide MPP operating voltage range
- o Load controls: Manual control, light ON/OFF, light On + Timer control
- o Support 4 Charging options: Sealed Gen, Flooded and User
- o Battery temperature compensation function
- o Real-time energy statistics function
- o RS-485 communication bus interface Modbus protocol
- o PC monitoring and external display unit supports
- o Software upgradeable
