AT A QUICK GLANCE

DIMENSIONS

INTELLIGENT SETTINGS

DAWN TO DUSK PROGRAMMABLE

The fixture comes pre-programmed to run at a 25% brightness when unneeded. Once triggered with PIR, it goes to 100% brightness until movement is no longer detected.

PRODUCT NAME	COBRA DARK SKY SOLAR BOLLARD
Style Code	12CB001
Brand	Earthsolar
Solar PV	6.2W 5V MONO
Battery	LifePO4 3.2V 12AH
Lumen (Lm)	280
LED Chips	SMD3030
Colour Temperature	3000K
Light Setting	4 hours 100% 13 hours 25% + 100% when sensor triggered
IP Rating	IP65
Actual Weight	4.7
Package Weight (kg)	5.8
Dimmension(cm)	275(dia) x 900(H)
Wattage	1.5W
Finish	Anti-corrosive
Body Colour	RAL7016
Body	Die-casting aluminium, pc lens, temp. glass
Warranty	5 Year warranty *1 year on battery

*Product performance may vary in environmental or seasonal conditions that affect available daytime light levels or intensity of sunlight. Units require initial charging of 6-8 hours full sunshine over 2-3 days to achieve state lux levels and autonomy performance. All product, product specifications and data are subject to change without notice to improve reliability, function or design or otherwise. This information is general. We take no responsibility for any errors or omissions that impact on your circumstances. Please contact your Earthtrack Representative to discuss your requirements.
