

BLAZE HALO

LED HEADLAMP WITH MOTION SENSOR

The Blaze Halo LED Headlamp with Motion Sensor is a versatile and reliable portable light source designed for various activities. It features a soft and comfortable design, low weight, and foldable construction made from high-quality ABS and silicone materials. The headlamp includes a wave sensor for hands-free operation, manual light control buttons, and multiple beam modes with COB and XPE LED. It is also waterproof (IPX4) and has a rechargeable battery with a 4-6 hour run time. Ideal for camping, home repairs, sailing, and other outdoor activities.
